## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-26 are allowed. The prior art alone or in combination fail to teach or make obvious on the following when considered in combination with other limitations in the claim: providing binding information associated with the user connection between network nodes requested by the radio network layer, and using the binding information to associate the transport layer signaling procedure and connection(s) with a corresponding network layer signaling procedure and connection(s) in the network nodes as cited in the independence claims 1, 10, and 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- an art of record WO 99/39528, disclosing requesting, via the radio network layer, the transport layer to establish a user connection between network nodes, carrying out a transport layer signaling procedure to establish a transport layer connection, and carrying out a network layer signaling procedure, which is separated from the transport layer signaling procedure, to
